

Academic Handbook

Regulations, Student Conduct, Residence, Leave & Administrative Procedures

2026-2027 Derived Policy Corpus

Corpus note. This document is a transformed study/test corpus based on the uploaded *MIT Mind and Hand Book 2026-2027*. Source-derived policy language is retained in substance; three additional synthetic statements were deliberately inserted to create controlled contradictions. The companion Markdown files contain synthetic residence and fee schedules for testing. This is not an official MIT publication.

Selected source material emphasizes student expectations, academic integrity, alcohol and other drugs, help-seeking amnesty, community well-being, discriminatory harassment, residence-related policies, emergency contacts, student leave, and complaint procedures.

Selected Regulations - Source Page 6

I. Introduction

As the Institute's mission states, MIT is committed to generating, disseminating, and preserving knowledge, and to working with others to bring this knowledge to bear on the world's greatest challenges. An MIT education combines rigorous academic study and the excitement of discovery with the support and intellectual stimulation of a diverse campus community. The Mind and Hand Book takes its name from *Mens et Manus*, MIT's Latin motto meaning "mind and hand." It serves as a guide for students in navigating the community expectations that make this educational community so vibrant. MIT expects that all students come to the Institute for a serious academic purpose and expects them to be responsible individuals who conduct themselves with high standards of honesty and personal conduct. It is MIT's philosophy to maintain rules and regulations consistent with efficient administration and the general welfare of the MIT community. Fundamental to the principle of independent learning and professional growth is the requirement of honesty and integrity in the conduct of one's academic and nonacademic life. Maintenance of a healthy living and learning environment requires that all members of the community exercise due respect for the basic rights of one another. Each student is responsible for reading and understanding the Institute's expectations which are documented in the Mind and Hand Book, available online at handbook.mit.edu, and the Academic Integrity Handbook, which is available online at integrity.mit.edu. By enrolling at MIT, students voluntarily agree to comply with the standards of performance and behavior that are described in the Mind and Hand Book and the Academic Integrity Handbook.

I (1). MIT Values Statement

Excellence and Curiosity We strive for the highest standards of integrity, and intellectual and creative excellence. We seek new knowledge and practical impact, in service to the nation and the world. We prize originality, ingenuity, honesty, and boldness. We love discovery and exploration, invention and making. We delight in the full spectrum of human wisdom. Drawing strength from MIT's distinctive roots, we believe in learning by doing, and we blur the boundaries between disciplines as we seek to solve hard problems.

Selected Regulations - Source Page 7

Embracing the unconventional, we welcome quirkiness, nerdiness, creative irreverence, and play. We accept the risk of failing as a rung on the ladder of growth. With fearless curiosity, we question our assumptions, look outward, and learn from others. Openness and Respect We champion the open sharing of information and ideas. Because learning is nourished by a diversity of views, we cherish free expression, debate, and dialogue in pursuit of truth - and we commit to using these tools with respect for each other and our community. We strive to be transparent and worthy of each other's trust - and we challenge ourselves to face difficult facts, speak plainly about failings in our systems, and work to overcome them. We take special care not to overlook bad behavior or disrespect on the grounds of great accomplishment, talent, or power. Belonging and Community We strive to make our community a humane and welcoming place where people from a diverse range of backgrounds can grow and thrive - and where we all feel that we belong. We know that attending to our own and each other's wellbeing in mind, body, and spirit is essential. We believe that decency, kindness, respect, and compassion for each other as human beings are signs of strength. Valuing potential over pedigree, we know that talent and good ideas can come from anywhere - and we value one another's contributions in every role. Together we possess uncommon strengths, and we shoulder the responsibility to use them with wisdom and care for humanity and the natural world.

I (2). Freedom of Expression and Academic Freedom

As stated in MIT's Statement of Freedom of Expression and Academic Freedom, MIT unequivocally endorses the principles of freedom of expression and academic freedom as essential to its mission. The policies included in the Mind and Hand Book are not intended to discipline students for engaging in protected expression. However, expression must occur within established parameters. As stated below in Section II, MIT does not protect some forms of expression, such as threats, harassment, or plagiarism, and may restrain the time, place, and manner of expression to ensure that the essential

Selected Regulations - Source Page 8

PLANTED CONTRADICTION 1 - Attendance Rule: A student must maintain a minimum of 75% attendance to appear for the end-semester exam. No exceptions are granted.

activities and operations of the Institute are not disrupted. To learn more about what freedom of expression means at the Institute, community members are encouraged to visit the MIT Free Expression website. II. Policies Regarding Student Behavior All members of the MIT community are expected to conduct themselves with proper respect for one another and each other's property. The Institute promotes the principle that every person brings unique qualities and talents to the community and that every individual should be treated in a respectful manner. All members of the MIT community are expected to conduct themselves with professionalism, personal integrity, and respect for the rights, differences, and dignity of others.¹ These standards of personal conduct apply to all communications, whether oral, written, or through gestures. Community members are also expected to treat the property of both the Institute and other community members with appropriate care and respect. The Institute reserves the right to take any action that it deems necessary or appropriate to protect the intellectual integrity, safety, and well-being of the campus community, including interim measures such as temporary suspension. To that end, MIT students are expected to abide by the rules, regulations, and policies of the Institute, as well as city, state, and federal laws. Students are expected to be familiar with the Institute's expectations of them, which are found in the MIT Bulletin, in the Mind and Hand Book, and in the Institute Policies & Procedures. MIT expects that members of the MIT community will not engage in behavior that endangers their own sustained effectiveness or that has serious ramifications for their own physical and mental health, safety, welfare, academic well-being, professional obligations, or for that of others. In situations where an individual student's physical illness or emotional difficulties affect not only the student, but also others in the community, it is the Institute's responsibility to consider the well-being of the community as well as the individuals. Off-campus misconduct may be a basis for MIT disciplinary action if the Institute considers that such alleged misconduct may have violated Institute policy and expectations of civility, integrity, and respect. Student status in no sense renders an individual student immune from the jurisdiction of civil or criminal courts and other governmental authorities. MIT actions will consider applicable law as well as the policies and procedures of the Institute and the standards of behavior expected of 1

Source: Policies & Procedures 9.2: Personal Conduct and Responsibilities Towards Students and Employees

Selected Regulations - Source Page 9

members of the educational community. MIT internally handles some incidents that might give rise to civil or criminal liability. This is done with the understanding by the outside community that MIT deals seriously with such offenses. As is the case for many universities, local authorities often rely on MIT to resolve such issues as long as the internal policies and procedures are effective and adequate. MIT action by itself, however, does not preclude the possibility of other judicial remedies. If an infraction causes a student to be involved both in Institute disciplinary proceedings and in criminal proceedings, the Institute generally will not delay or stop the internal process until after the criminal proceedings have been concluded. For more information, contact the Office of Student Conduct and Community Standards, room W32-105, 617- 258-8423, osccs@mit.edu.

II (1). Academic Integrity

Fundamental to the academic work students do at MIT is an expectation that students will make choices that reflect integrity and responsible behavior. MIT anticipates that students will pursue their studies with purpose and integrity. The cornerstone of scholarship in all academic disciplines is honesty. MIT expects that students will work with honesty and integrity. The aim of this policy is to make available information on prohibited academic misconduct. Further information about the below policy, including clarifying guidance on the policy and resources on acceptable academic conduct, can be found in MIT's Academic Integrity Handbook. Cheating, plagiarism, unauthorized collaboration, and other forms of academic misconduct are considered serious offenses for which disciplinary penalties can be imposed. Academic misconduct includes but is not limited to the following examples:

A. Cheating

Cheating involves taking unfair advantage when completing academic work. This can include, but is not limited to:

- Copying other students' work.
- Using any material or aid not authorized by the person giving the test,

project, or other assignments (e.g., websites, cell phone, calculator, notes, previous testing materials) that could provide an unfair academic advantage. This includes distributing unauthorized materials (e.g., giving access to test information to others, etc.).

- Changing the answers on an exam for re-grade.

Selected Regulations - Source Page 10

- Misrepresenting a family or personal situation to get an extension.
- Forging a faculty member's signature for an academic form.
- Falsifying data or claiming to have done research that one did not do.
- Claiming the work of others as one's own by deliberately not citing them.
- Signing in for another student who is not in attendance, requesting this

action of others, or signing into class and not attending the entire class period.

- Assisting another student in doing any of the above.

B. Plagiarism

Plagiarism is the appropriation of another person's ideas, words, processes, results, assertions, data, or figures without giving appropriate credit or acknowledging that one has done so. This can include, but is not limited to:

- Copying, partially or entirely, any material without acknowledgment of the

source.

- Partial or incomplete citation of work or ideas.
- Acknowledging the source but failing to present the material in one's own

words or paraphrasing without acknowledging the source (improper paraphrasing).

- Submitting the same or substantially the same academic work for multiple

courses without instructor(s) permission (self-plagiarism).

C. Unauthorized Collaboration

Collaboration is a key component of a student's MIT education. By working with other students on projects, labs, and papers, students carry on a long tradition of contributing to the knowledge that will shape the future of our world. Students are responsible for understanding the accepted level of collaboration for each of their classes. The accepted level of collaboration and the specific requirements for documenting your collaborative efforts vary greatly from class to class, even within the same department. Instructors determine the collaboration policy for each class. If the policy is not clearly described in the online course materials or in a class handout, ask your instructor how much collaboration is permitted. Students should make sure they know where to draw the line between collaboration and what could be considered cheating.

D. Falsification of Information or Data

Misrepresenting or misleading others with respect to academic work or

Selected Regulations - Source Page 11

misrepresenting facts for academic advantage. This can include, but is not limited to:

- Fabrication of documents submitted in connection with academic work.
- Falsifying data or claiming to have done academic work that one did not do.

E. Research Misconduct

Research misconduct is fabrication, falsification, or plagiarism in research activities or deliberate interference. The full policy can be found in MIT's Policies & Procedures 10.1: Procedures for Dealing with Academic Misconduct in Research and Scholarship.

F. Other Examples of Academic Misconduct

- Having someone complete work for you, including the use of commercial tutoring or paper-writing services, or doing the work for someone else.
- Engaging in an act of bribery or coercion. Bribery refers to soliciting, receiving, or giving an item of value in exchange for academic work.
- Taking, misplacing, or damaging property if the student knows or reasonably should know that an unfair academic advantage would be gained.
- Destroying/altering the work of others or of resources to prevent other students from accessing them.

G. Facilitating or Being Complicit in Academic Misconduct:

Assisting another student in doing any of the above academic misconduct examples. This includes, but is not limited to:

- Sharing academic work or previous course materials with another student without the permission of the instructor.
- Communicating with an individual(s) during an examination without the instructor's permission.
- Completing another student's academic work for them.

Academic integrity and misconduct are explained more fully, including how to avoid engaging in academic misconduct, in the Academic Integrity Handbook. Early in the term, the instructor should communicate specific expectations regarding academic conduct and collaboration in the subject. See the information on Term Regulations. The Institute encourages faculty to take responses to academic misconduct seriously, while also evaluating each case individually for the most

Selected Regulations - Source Page 12

appropriate response. In all cases, documenting the outcome with the Office of Student Conduct and Community Standards (OSCCS) ensures that records of student misconduct are maintained centrally at the Institute, preventing an individual student from committing several instances of academic misconduct without accountability. Several methods of response are available, all of which help uphold the integrity of the Institute and all students' learning experiences. The OSCCS is responsible for facilitating these responses for faculty, as well as maintaining documentation within the Institute on the incident and response. Information for faculty regarding the options for managing academic integrity violations is available on OSCCS's webpage, studentconduct.mit.edu, and in MIT's Policies & Procedures 10.2 Procedures for Dealing with Student Academic Dishonesty.

II (2). Alcohol and Other Drugs

MIT is committed to holding community members accountable for the illegal use or abuse of alcohol and other drugs and is equally committed to assisting members of the MIT community in facing the challenges of drug use and alcohol abuse. The alcohol and other drugs policy is presented in five sections:

A. Alcohol Policy

B. Other Drug Policy (Prohibited Substances)

C. Requirement to Obtain Medical Assistance for Emergencies

Involving Alcohol and Prohibited Substances

D. Institute Imposed Sanctions for Violations of Alcohol and Prohibited Substances Policies

E. Good Samaritan Amnesty Policy

II (2) (A). Alcohol Policy

MIT prohibits any persons under the age of 21 from possessing or consuming alcohol. Additionally, MIT prohibits persons from providing, serving, or selling alcohol to any person, except as expressly allowed in Institute Policy 9.13.2. Small social gatherings (usually considered to be 25 guests or fewer) at which alcohol is served to individuals over the age of 21 are not considered a violation of this policy. MIT also prohibits inappropriate behaviors that result from the use of alcohol by persons of any age, including but not limited to public intoxication, driving while under the influence of alcohol, vandalism, and behaviors that require an intervention by Institute staff, cause a disturbance, or are a danger to persons (self

Selected Regulations - Source Page 13

or others) or property. Other alcohol-related behaviors prohibited by MIT include but are not limited to: the possession or use of false identification to purchase alcohol, possession of open containers of alcohol in public spaces, consumption from quantity dispensing sources (e.g. kegs, punch bowls, water coolers, beer balls or garbage cans) on campus or in Institute -approved housing, engaging in drinking games or other activities involving rapid and/or excessive consumption of alcohol on campus or in Institute-approved housing, and hosting events where alcohol is present or consumed without prior approval, as required by the Event Planning Guide.

A. Alcoholic beverages at student -sponsored and student

group-sponsored events Alcoholic beverages containing 15% alcohol by volume (ABV) or less may be served at approved student -sponsored and student group -sponsored events. All beverages served at events must be pre -packaged, and hard liquor of any kind (including in pre -packaged or canned cocktails) is not permitted to be served at student-sponsored or student group-sponsored events. Students should be familiar with all alcohol -related event protocols and procedures; students may find links to relevant protocols and procedures for residence halls, FSILGs, and student organizations below:

- Events in Residence Halls: Hosting a Residence Hall Event
- Events in Fraternities, Sororities, and Independent Living Groups: FSILG

Social Events Policy

- Events Hosted by Student Organizations: Events Involving Alcohol

MIT also adheres to the provisions concerning alcohol under the federal Drug - Free Workplace and Drug-Free Schools and Communities Acts (DFSCA). The Institute does not intend through its guidelines or policies to restrict the responsible use of alcohol by members of the MIT community who are at or above the legal drinking age of 21. However, efforts to observe existing laws and regulations in an environment where the majority of the undergraduate student body is not of legal drinking age will impose some constraints on those who are of legal drinking age.

II (2) (B). Other Drug Policy (Prohibited Substances)

MIT prohibits the use, sale, manufacturing, distribution, possession, the purchase, intent to acquire, or facilitation of the use of illegal drugs and other illegal substances, as well as substances that are generally recognized as dangerous and

Selected Regulations - Source Page 14

detrimental to the individual and community, even though they may not be illegal (including, but not limited to, whippits, 2 -C's, NBOME, research drugs, Spice, K -2, non-prescribed performance enhancing drugs) (referred to in this policy as "prohibited substances"). Additionally, MIT prohibits persons from permitting the use of prohibited substances, as noted in this policy, in one's residence. MIT also prohibits the unlawful distribution, possession, social sharing, non -prescribed use, or abuse of prescription drugs. Altering, tampering, or forging a prescription is also prohibited.

A. Recreational Cannabis

Although the Commonwealth of Massachusetts has approved legislation to legalize recreational use of cannabis (also referred to as marijuana, weed, THC, among other terms) by people at or over the age of 21, MIT must abide by federal law, including the Drug-Free Schools and Communities Act, to remain eligible for federal funding to the Institute, including student financial aid. Therefore, MIT must continue to maintain and enforce its prohibition on the use of cannabis. This means that for all students, regardless of age, MIT prohibits the use, sale, manufacturing, distribution, possession, or facilitation of the use of cannabis on campus, including in all FSILGs, or as part of any MIT-sponsored activities. This policy does not restrict lawful possession and use of cannabis while off campus by members of the MIT community age 21 or older, unless it takes place in an MIT approved living group or as part of any MIT -sponsored activities. MIT prohibits the unlawful manufacturing, selling, and distribution of cannabis regardless of location or age.

B. Medicinal Cannabis

Because the federal Drug-Free Schools and Communities Act applies to the use of medical cannabis, MIT policy includes the prohibition of cannabis for medicinal purposes on campus, including in all FSILGs, or as part of any MIT - sponsored activities. This prohibition applies even if the Massachusetts Department of Public Health has issued a Medical Marijuana Registry identification card to an individual, authorizing that individual to possess and use cannabis for medicinal purposes. Thus, despite whatever state law may permit, MIT policy strictly prohibits any person with a medical cannabis card from possessing, using, distributing, selling, manufacturing, or facilitating the use of medical cannabis on campus, including in all FSILGs, or as part of any MIT-sponsored activities. For those students who have a medical condition that may qualify as a disability, please contact Disability and Access Services to discuss alternative accommodations and support that may be available to address disability-related needs.

Selected Regulations - Source Page 15

II (2) (C). Requirement to Obtain Medical Assistance for

Emergencies Involving Alcohol and Prohibited Substances Members of the MIT community are required to summon emergency medical services (by calling 911 or the MIT Police) to obtain assistance and evaluation for any person who is in their room or immediate presence and is, or is suspected to be, under the influence of alcohol or other prohibited substances, when that person's well-being and safety is known to be or reasonably should be known to be in jeopardy. When an individual knows or reasonably should know that another person is in jeopardy, failing to summon emergency medical services (e.g., taking the person back to their residence and dropping them off, driving the person to a hospital in a personal vehicle, asking another person to take responsibility for the intoxicated individual) shall be considered a serious violation of this policy. The health and safety of MIT students and other community members are of the utmost importance. For this reason, the fact that a student or student organization obtains medical assistance in accordance with this policy will be a factor that will be considered strongly in their favor in determining whether and to what extent disciplinary action will be pursued, as well as determining the severity of potential outcomes and/or sanctions.

II (2) (D). Institute Imposed Sanctions for Violations of

Alcohol and Prohibited Substances Policies

MIT students found to be in violation of the Institute's alcohol and prohibited substances policies should expect to receive sanctions for those violations through the Office of Student Conduct and Community Standards, via the Committee on Discipline (COD). Sanctions are primarily intended to be educational in nature so that students learn from the experience and the behavior(s) are not repeated in the future. Sanctions for alcohol and/or other drug violations include but are not limited to a warning, probation, attendance at an educational program or meeting, referral to a counseling program or therapist, work project or community restitution hours, loss of Institute -approved housing, suspension, expulsion, or another sanction deemed appropriate for the violation. The sanctions of disciplinary suspension and disciplinary expulsion will be strongly considered when a student is found to have violated the policy regarding the sale, distribution, or social sharing of prohibited substances and when a student has failed to summon medical assistance for someone they knew, or reasonably should have known, to be in medical jeopardy due to alcohol or substance use. Additionally, careful note should be taken that MIT will not provide protection or immunity from legal prosecution through existing city, state, or federal laws.

Selected Regulations - Source Page 16

II (2) (E). Help-Seeking (Good Samaritan) Amnesty Policy

A. Introduction

The health, safety, and general welfare of MIT students and other community members are of the utmost concern to the Institute. The following Good Samaritan Amnesty Policy has been established to reduce barriers related to seeking help during medical emergencies or situations when someone is believed to be the victim of a crime or significant policy violation even if there is no medical emergency. All students are required to seek immediate medical attention in circumstances when they or others with them experience the potentially dangerous effects associated with the use of alcohol or prohibited substances.²

B. Policy Guidelines

In a situation where students seek medical attention for an alcohol or prohibited substance-related medical emergency, MIT will treat the students' use of alcohol or prohibited substances as a health and safety matter, not as a disciplinary incident. This policy, which is intended to reduce barriers to getting help, will be extended not only to the student receiving medical attention, but also to the student(s) who call for help. In addition, to encourage reporting and seeking help, this policy will be extended to any students who report in good faith that they witnessed or are the victim of a crime or a significant violation of MIT policy (e.g., sexual misconduct, hazing) even though they may have been under the influence of alcohol or prohibited substances at the time of the incident. Signs of an alcohol or prohibited substance-related emergency can include a combination of lack of coordination, inability to stand, confusion, slurred speech, erratic behavior, slow or shallow breathing, pale or clammy skin, and/or vomiting while unconscious. For more signs of concern, see <https://doingwell.mit.edu/alcoholandwellbeing>. In an alcohol or prohibited substance-related medical emergency, students are expected to:

- Contact emergency officials by calling 100 (on campus) or 617-253-1212;

² Prohibited substances include illegal drugs and other illegal substances, as well as substances that are generally recognized as dangerous and detrimental to the individual and community, even though they may not be illegal (including, but not limited to, whippits, 2-C's, NBOME, research drugs, Spice, K-2, non-prescribed performance enhancing or other prescription drugs).

Selected Regulations - Source Page 17

- Remain with the individual(s) requiring treatment and cooperate with emergency officials;

- Meet and cooperate with appropriate Institute administrative staff after

the incident. There are no restrictions to the number of times this Good Samaritan Amnesty Policy may be used, and doing so repeatedly will not result in disciplinary action. If a student in need of medical attention is in a student residence, any other student(s) in the room or in the immediate presence are expected to make a call for assistance. Similarly, for situations occurring in residential common spaces (e.g., suites, apartments, lounges, function rooms), it is expected that the community members present at the time will make a call for assistance. When members of student organizations call for assistance on behalf of individuals in need of help under this policy, the organizations will also not face disciplinary actions for violations of the Institute's policies on alcohol and prohibited substances.

C. Policy Expectations

Students or student organizations using this policy may be required to complete educational and/or counseling program(s) that are meant to support students and/or their organizations and connect them with other community services and resources that may be beneficial. These programs and services will be tailored to the specific circumstances and needs of those involved. In instances where students or student organizations do not seek help for a student in need or do not follow through with required educational and/or counseling program(s), the protections offered by this policy may be voided and disciplinary follow-up through the Committee on Discipline (COD) may occur.

D. Policy Limitations

The Good Samaritan Amnesty Policy applies to violations of policies relating to the use of alcohol and prohibited substances but does not preclude MIT from taking disciplinary actions to address other violations of MIT policy including, but not limited to, violence, sexual assault, harassment, serious property damage, hazing, or the manufacture, sale, or distribution of prohibited substances. It also cannot preclude or prevent action by police or other legal 3 For the purpose of this policy, the term student organization includes both recognized and unrecognized student groups; sports teams; fraternities, sororities, and independent living groups; and floors, entryways, and other groupings within on-campus residences.

Selected Regulations - Source Page 18

authorities. In cases where there have been other violations of Institute policy, calling for assistance for an individual in need of help may be considered a mitigating factor in any disciplinary process arising out of such violations (and failure to seek assistance may be considered an aggravating factor in any such disciplinary process). Students and student organizations that do not seek medical attention in alcohol or prohibited substance-related emergency situations where action is warranted could lose all protections under this policy and could face referral to the COD.

II (3). Amnesty for Help Seeking Policy

The health, safety, and general welfare of MIT students and other community members are of the utmost concern to the Institute. MIT has established Help-Seeking Amnesty Policies to reduce barriers related to seeking help during medical emergencies or situations when someone is believed to be the victim of a crime or significant policy violation, even if there is no medical emergency. The below policies describe MIT's Help-Seeking expectations.

A. Amnesty for Help-Seeking: Alcohol & Other Drugs

In a situation where students seek medical attention for alcohol or prohibited substance-related medical emergencies, MIT will treat the students' use of alcohol or prohibited substances as a health and safety matter, not as a disciplinary incident. For more information, see the Help-Seeking policy for alcohol and other drugs.

B. Amnesty for Help-Seeking: Hacking

In a situation where students in good faith seek help or medical attention for a dangerous emergency situation, MIT will treat the students' call for help as a significant mitigating factor. For more information about the Help-Seeking policy for hacking, see Mind and Hand Book Section II (12). Hacking.

C. Amnesty for Help-Seeking: Discrimination & Discriminatory Harassment

The health, safety, and general welfare of MIT students and other community members are of the utmost concern to the Institute. In a situation where students or student organizations act as a reporting party in a case of discrimination or discriminatory harassment (including without limitation sexual misconduct, intimate partner violence, and stalking), students will not be subject to disciplinary sanctions for violations of Institute policy related to the incident, except as described below. This amnesty consideration, which is intended to reduce barriers to getting help,

Selected Regulations - Source Page 48

substance on someone's body, or similar activity; (bb) causing, coercing, or otherwise inducing sleep deprivation, exposure to the elements, confinement in a small space, extreme calisthenics, or other similar activity; (cc) causing, coercing, or otherwise inducing another person to consume food, liquid, alcohol, drugs, or other substances; (dd) causing, coercing, or otherwise inducing another person to perform sexual acts; (ee) any activity that places another person in reasonable fear of bodily harm through the use of threatening words or conduct; (ff) any activity against another person that includes a criminal violation of local, State, Tribal, or Federal law; and (gg) any activity that induces, causes, or requires another person to perform a duty or task that involves a criminal violation of local, State, Tribal, or Federal law."

II (16). Improper Use of Institute Name and Logo

The Institute's name must not be used in ways that suggest or imply the endorsement of other organizations, their products, or their services. The use of the Institute's name, logo, seal, and photographs in the advertising and other promotional material and activities of outside organizations is prohibited when such use is likely to be understood as an endorsement, even if such an endorsement is not the intention of the person or organization seeking to use MIT's name. All proposals, therefore, for the use of MIT's name or other identification in advertising, sales literature and videos, and commercial

publicity must be submitted to the Technology Licensing Office. See Institute Policy

12.3: Use of Institute Name for additional information.

II (17). Improper Use of Institute Property

MIT prohibits improper use of Institute property or facilities, including offices, labs, residence halls, and other physical spaces, keys/key cards, computers, telephones, and other equipment or tangible property. Examples of improper uses include without limitation vandalism, damage, or destruction of items or physical spaces; entering into restricted or private areas without authorization; uses intended for personal financial gain; engaging in illegal activities; or using Institute property in a manner that violates other MIT policies.

Selected Regulations - Source Page 49

II (18). Institute Expectations of Student Behavior and

Integrity MIT is a community dedicated to scholarship and leadership. Student members of this community commit to reflect upon and uphold these principles in all academic and non-academic endeavors. MIT expects that all students come to the Institute for a serious academic purpose and expects them to be responsible individuals who conduct themselves with high standards of honesty, fairness, respect, integrity, and accountability in both their academic and non-academic lives. Students are expected to uphold a high standard of civility and to demonstrate their respect for all members of this diverse community. These expectations are fundamental to the principle of independent learning and professional growth and to the maintenance of a healthy living and learning environment. MIT's expectations of civility and accountability also extend to periods where students are under interim action related to the discipline process as imposed by the Committee on Discipline, Dean for Student Life, or designee. Accordingly, students are expected to comply with all terms defined within said action, including but not limited to no-contact orders, temporary or permanent removal of a student from MIT housing or relocation to another room or residence hall, restrictions on student organization or residence hall activities, restricting a student's access to certain campus locations, or changes to academic or work schedules. MIT expects that students will comply with any and all policies related to special Institute events; these events include, but are not limited to: Orientation, Campus Preview Weekend, and Commencement. This expectation also extends to emergency or interim policies established by Institute officials to respond to crises or other circumstances that significantly impact the Institute community. These policies may include directives that modify expectations of student behavior, as well as how students interact with other community members in academic and non-academic settings.

II (19). MIT ID Card

Students are prohibited from giving their MIT ID card to anyone else. This includes both physical ID cards as well as access to a Mobile ID or Mobile ID data in any form. MIT ID cards are required to gain access to all MIT residence halls. MIT ID cards are also used to access house dining halls, can be used for Dining Dollars and TECHCash, and in some

Selected Regulations - Source Page 60

F. Violations and confiscation

Any PW that is operated, parked, stored, or charging in an improper or unsafe manner in disregard of MIT's guidelines is subject to removal by the MIT Police and/or a representative from the Parking & Transportation Office. MIT (including MIT Police and the Parking & Transportation Office) is not responsible for any alleged damage to or missing accessories/equipment from an impounded PW. If your PW has been removed, mitparking@mit.edu.

V (3). Statement on Drug -free Campus and Workplace

Policies

Pursuant to the Drug -Free Schools and Communities Act Amendments of 1989 and the Drug Free Workplace Act of 1988, MIT has a comprehensive program to prevent the use of illegal drugs and the abuse of alcohol. MIT reviews its program biennially to determine its effectiveness, implement any necessary changes, and ensure that the required disciplinary sanctions are consistently enforced. Please refer to dfsca.mit.edu for information on standards of conduct, legal sanctions, health risks, resources and programs offered by MIT, and disciplinary sanctions for policy violations."

V (4). Emergency Contacts, Missing Person, Missing

Student Notification Policy

A. Emergency Contact Information

Students should provide their emergency contact information to the Institute. Students should annually review and, if necessary, edit their emergency contact information, as well as term and home address, within WebSIS. Anyone with a Kerberos ID and cell phone registered with Duo is automatically added to the MIT Alert system, which is used to send advisories and critical notifications associated with COVID -19. Students are encouraged to also update their preferred email and phone number in the MIT Alert system to ensure notifications are also sent to that email and phone number.

B. Missing Person Procedure

If you can't find someone and are worried that person is missing, immediately contact the MIT Police at 617.253.1212. Be prepared to supply information on the missing person. Please also notify your Head of House or the Dean on Call, who will work with the Police to notify the missing person's family when appropriate.

Selected Regulations - Source Page 61

PLANTED CONTRADICTION 3 - Library Refund Deadline: Library security clearance and refund claims remain valid for up to 1 year post-graduation.

C. Missing Student Notification Policy

MIT has adopted this missing student notification policy for students who reside in on-campus housing, including approved FSILG housing. In accordance with this policy, each student who resides in on-campus housing has the option to identify an individual to be contacted by MIT after such student is determined to be missing in accordance with procedures that have been established by the office of the Dean for Student Life in consultation with the MIT Police. Students can identify an individual to be notified by providing Missing Person Emergency Contact information to the Registrar's Office through WebSIS, which is available online at <http://student.mit.edu/cgi-docs/student.html>. Students who have not already provided Missing Person Emergency Contact information - including those students who live off campus - are strongly encouraged to do so as soon as possible. Except as otherwise permitted or required by law, Missing Person Emergency Contact information will be kept confidential, will be accessible only to authorized campus officials, and will not be disclosed to non-campus officials other than law enforcement personnel in furtherance of a missing person investigation. In addition to notifying the emergency contact(s) identified by a student, MIT must also notify a custodial parent or guardian of a student who is under 18 years of age and is not an emancipated individual if such student is determined to be missing. MIT is also required to notify the appropriate law enforcement agency (or agencies) if any student, regardless of age, is determined to be missing. MIT reserves the right to notify additional individuals or authorities in its discretion - including the parents or guardians of students over 18 years of age - if a student is determined to be missing. If you are concerned that a fellow student might be missing or otherwise in danger, you should immediately notify the MIT Police.

V (5). Protection of Personal Privacy

MIT is committed to protecting the personal privacy of members of the MIT community. The mutual trust and freedom of thought and expression essential to a university rest on a confidence that privacy will be respected. While the organizations collecting and having custody of personal information are immediately responsible for its protection, the ultimate protection comes from a community-wide awareness of the importance of personal privacy in our society and the many ways it can be eroded.

V (6). Student Leave Policies

Selected Regulations - Source Page 62

There are many reasons why a student might want or need to take time away from MIT. These may include personal or medical issues interfering with their academics; opportunities for professional experience, such as an internship ; family or community commitments; or the desire to just take a break. For more information on student leave policies, visit <https://studentlife.mit.edu/wellbeing-support/student-support-services-s3/requesting-a-leave>. Misconduct by a student on leave that is brought to MIT's attention may be a basis for MIT disciplinary action, including temporary or permanent denial of a request to return from leave or referral to the Committee on Discipline. See COD Rules at cod.mit.edu for further details.

A. Undergraduate Medical Leave Policy

For information on the undergraduate medical leave policy, visit <https://studentlife.mit.edu/wellbeing-support/student-support-services-s3/requesting-a-leave/>

B. Graduate Medical Leave Policy

For information on the graduate medical leave policy, visit <https://oge.mit.edu/gpp/admissions-and-registration/leaves-accommodations-and-time-off> VI. Complaint, Reporting, and Disciplinary Procedures

Complaints or incident reports that allege MIT students or student organizations have violated Institute policy should be directed to the Office of Student Conduct and Community Standards (OSCCS), via email (osccs@mit.edu), phone (617-258-8423) or by completing an online report form. If you are considering submitting a report or making a complaint against a student, we encourage you to meet with staff in OSCCS to raise your concerns. Additionally, interpersonal difficulties with other students can be resolved by discussing the issue with your residential house team, department head, other appropriate venues or groups, including OSCCS. Students may also bring concerns to the attention of an Ombudsperson, IDHR, or may file a report with MIT's Hotline. It is the Institute's policy that individuals will not be retaliated against for initiating an inquiry or complaint in good faith. Anyone-including individual students, faculty members, and employees of the Institute-may bring a complaint against a student to the Committee on Discipline (COD). The COD reviews cases of academic offenses, violations of Institute regulations and standards, and other infractions alleged to have been committed by students. A complaint against a student must be submitted in writing to OSCCS. The charge and its

Selected Regulations - Source Page 63

documentation are transmitted to the chair of the COD. After a review of the documentation, the chair will decide the appropriate method of resolution. The COD has the authority to impose any sanction it deems appropriate. Possible sanctions include placing a warning letter in a student's disciplinary file, probation, suspension, and expulsion. Sanctions may also include educational and/or restorative components meant to address the wrongdoing and serve the larger community. Detailed procedures for resolving complaints alleging that a student has violated MIT policies are available from the COD Rules online and in print from the Office of Student Conduct and Community Standards. Discrimination & Discriminatory Harassment Students should submit complaints about any MIT community member who has engaged in behaviors covered by the Title IX of the Higher Education Act of 1972 with regard to grievances arising out of alleged discrimination on the basis of sex, and for disabled students alleging failure to comply with Sections 503 and 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the Americans with Disabilities Amendments Act (ADAAA) of 2008 to the MIT Institute Discrimination and Harassment Response Office. A description of the complaint procedures is included in Institute Policy 9.8: Complaint Resolution (Policies and Procedures) and on IDHR's website. Procedures for reporting Discrimination and Discriminatory Harassment, including sexual misconduct, intimate partner violence, and stalking, is available on the IDHR website, <https://idhr.mit.edu>. Information about the complaint resolution process is available on the IDHR website, idhr.mit.edu. VII. Resources MIT has a wealth of resources for students. Students are encouraged to refer to the Student Resources for Living and Learning at MIT website (studentlife.mit.edu/policies-and-resources/) for more information on offices, services, and tools they can use. Important Numbers and Contacts

- MIT Police: Emergency dial "100" from campus phone or 617-253-1212 from mobile
